Commercial Waste Fee Exclusion for Residential Dwellings on Commercial Property Application Form

The purpose of this application form is to provide commercial waste disposal fee relief for residential dwellings producing household waste only, while existing on a commercial property. The residential dwelling waste must not be related to the commercial enterprise operation of providing goods and/or services for profit, or directly supporting providing goods and/or services for profit.

An accepted application will be awarded 52 waste tags, equating to disposal of one standard household waste bag per week for the residential dwelling approved. Such application must be submitted each year for approval. Waste tags are to be surrendered to the Transfer Station attendant upon each waste delivery. No additional tags will be given than the annual, or pro-rated, allotment.

Commercial waste fees will continue to apply for all commercial generated waste as defined and scheduled in By-law 2022-08 "Waste Management System".

Property Owner Information:

Full Name:	
Phone Number:
